

附表一

 The image shows the First Class Atomic Energy Award. It features a large, multi-pointed star-shaped medal with a blue center containing a white atomic symbol, surrounded by red and white segments. The medal is suspended from a red, white, and blue ribbon. To the right of the main medal is a smaller, circular pin with a similar design.	 The image shows the Second Class Atomic Energy Award. It features a large, multi-pointed star-shaped medal with a blue center containing a white atomic symbol, surrounded by red and white segments. The medal is suspended from a red, white, and blue ribbon. To the right of the main medal is a smaller, circular pin with a similar design.	 The image shows the Third Class Atomic Energy Award. It features a large, multi-pointed star-shaped medal with a blue center containing a white atomic symbol, surrounded by red and white segments. The medal is suspended from a red, white, and blue ribbon. To the right of the main medal is a smaller, circular pin with a similar design.
